Concrete/Masonry	Pathway Pavement	Not Yet Started	4673-DR Hurricane Ian

Port Charlotte Beach Park

Project Location

4500 Harbor Blvd., Port Charlotte, Florida, 33952

Project Description

Multiple hurricane's resultant wind driven wave action negatively affected the structural integrity of facilities located within the parks' adjacent waterway (docks and boat ramps), the high winds and windblown debris negatively affected built structures located on the park's land.

Project Breakdown

Project List – Description of Work	Project Phase	Status	Estimated Start Date	Forecast Completion	Actual Completion	Funding Source	Named Storm Disaster

Public Facing Reporting Proposed Architecture

NOTES:

1. Lists are updated in the Fiscal SharePoint by Department with current project information, supplemented by additional departmental Excel status update data sheets and project financial information from Munis.
2. Fiscal SharePoint and PowerBI will be the sources of information that Charlotte County IT uses to update the County website.
3. This will streamline updates and allow the public to have the most updated information for ongoing Disaster Recovery projects.
