Sherri

As far as I know the Edgewater project between Edgewater @ Collingswood and Flamingo @ SR 776 does not have any valid SWFWMD permits. Any permits that may have been issued have since expired as there is no anticipated construction funding. The design was done in 2008-09 and with no plan to fund the right-of-way acquisition or construction the project was shelved and no farther action has been taken since then.

Thanks

Chuck,
It must be the section you are thinking it is as I am unaware of any changes to our section of Edgewater

Thanks,

Edward Lomski Jr., P.E.

Subject: EP2 - SWFWMD Permit

Ed,

When the County removed the Manchester Lock, the County agreed to modify our Edgewater Drive Permit. I'm sure the plan was for the Edgewater section Collingswood to SR 776, but just checking to see if anything was done regarding our permits.

Thank You,
